is such a great aid is because is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Is work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better taken place even before you expect it.

To-morrow our full force will be on hand all day and evening to help you in choosing your left-till-the-last gifts. At 10.30 pm. the store closes and our many employees take their well earned holiday. Never has a Christmas essaon closed so brightly for us or so much to the satisfaction of our customers as has this of 1904.

The rapid growth of our year's business has climaxed in a holiday season surpassing our highest expectations.

Of course our immense Christmas trade is in part a redection of the general prosperity, but above and beyond that it is a proof that he possibilities and usefulness of our store are becoming better understood—that people realize more and more how truly metropolitan age our stocks—how efficients our service.

No small part of the credit for the success of our Christmas worked most latifully to every you. Our thanks are due both to them and to you for the remarkable smoothness with which such a great volume of business has been done. Increased efficiency on their part and increased confidence on yours are very evident and gratifying features of the situation

You would almost think that with such enormous selling, shelves and counters must be nearly bars. Not a bit of it. There's a stream of goods constantly coming in to replace those going out, and Tuesday will find us ready to meet your simplest used or your most extravagant demand as promptly as though Christmas had never been.
